

Outdoors with the Cubs

Celebrating 75 Years with the Northeast Georgia Council

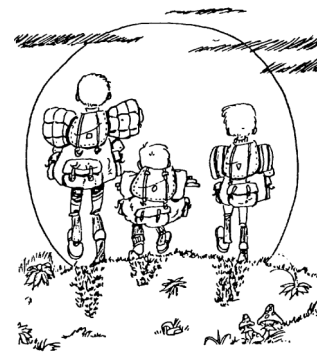

"I Just wanted to remind you that every boy wants to go camping, hiking, fishing, and all the other fun that can only take place outdoors. These activities also help develop strong boys with a appreciation of the outdoors and the excitement to learn by exploring the world around them. Outdoor activities encourage young boys to learn new skills and how to challenge their imaginations. Packs and dens should give their scouts many opportunities to do outdoor activities. Your District and the Northeast Georgia Council offers several opportunities for scouts and their families to camp in a organized and exciting program."
